

October 30th
6:30 PM - 7:00 PM

In attendance: Yulin, Dean, Sam

Topics of Discussion:

1. Design Document workload distribution
2. Distribution of work for other project aspects (website) over the coming week

Meeting Minutes:

This meeting had a smaller attendance number due to schedule conflicts over halloween weekend, so this meeting was kept shorter to focus on distributing work for the Design Document assignment, due at the end of the week of this meeting.

- Decided to split the document into groups of 2 sections, with 1-2 people working on each section.
 - Introduction and Conclusion
 - Deliverables and Design
 - Testing and Conclusions
- Kojo and Matt will focus on getting the website up for this week in place of work on the design document.
